

## Samsung 10kW High Wall (R32)

The Samsung 10kW High Wall operates at its maximum speed in Turbo mode to quickly reach the set temperature.

### **Easy Filter Plus**

Unlike conventional filters that may be difficult to access the Easy Filter Plus is located externally on the top of the unit. This means it can be easily removed and cleaned without needing to open a cover or pull hard on it. Thanks to the filter's dense mesh it's very effective at capturing dust and therefore keeping the Heat Exchanger clean and working efficiently. The special coating on the filter helps protect residents from certain airborne contaminants<sup>1</sup>.

#### WiFi Control

Temperatures in your building can be managed remotely using the SmartThings App<sup>1</sup>. Turning it on and off, selecting the cooling mode, scheduling its operation or monitoring the power consumption is just one touch away. The Bixby 2.0 Artificial Intelligence (AI) system<sup>2</sup> analyses and predicts your needs so it can suggest the best settings for inside your home.
